About me:
I'm a mathematics student at the University of Trento. I'm interested in Algebra, Cryptography and Programming (in particular I like programs for computational algebra).

EDUCATION AND TRAINING

09/2021 – CURRENT – Via Sommarive 14, Povo TN, Italy

MASTER OF SCIENCE IN MATHEMATICS, CURRICULUM CRYPTOGRAPHY – Università di Trento

I am attending lectures regarding mathematical subjects related to modern cryptography. For instance Finite Fields, Computational Algebra, Algebraic Geometry, Number Theory and Stochastic processes. I also have studied implementations of cryptographic primitives (for example in MAGMA).
I have also followed courses about real world applications of cryptography, in which we discussed issues in computer and network security, protocols, privacy, access control, public key infrastructures and other topics.

EQF level 7 | ECTS | 120

2018 – 19/07/2021 – Via Sommarive, 14, Povo TN, Italy

BACHELOR'S DEGREE IN MATHEMATICS – Università di Trento

I've followed lectures about the principal topics of mathematics: analysis, topology, numerical analysis, probability and statistics, number theory, geometry, **algebra** (linear and abstract).
In particular, I've focused on the last one, studying commutative algebra, Galois theory, Group theory, Field Theory, Algebraic number theory and Algebraic geometry.
Also, I've studied physics and programming (Java, Matlab, **Sagemath**).
